Cotton mills closed, short crops and low priced cotton means light business for us all. There are more Dry Goods in Fort Mill than ever before. Somebody will have a lot of goods to carry over. We do not propose to carry over anything if Low Prices will move them. Instead of waiting until January or February to sell our stock off at a loss, we have put the knife in prices right now when you need the goods. Would like to quote you a few prices, but don't like to cause our competitors to lose sleep. So come and see the goods, and the prices will do the rest.
